GALVO SHED

SIMPLY GREAT STORAGE

GARDEN SHEDS MADE EASY

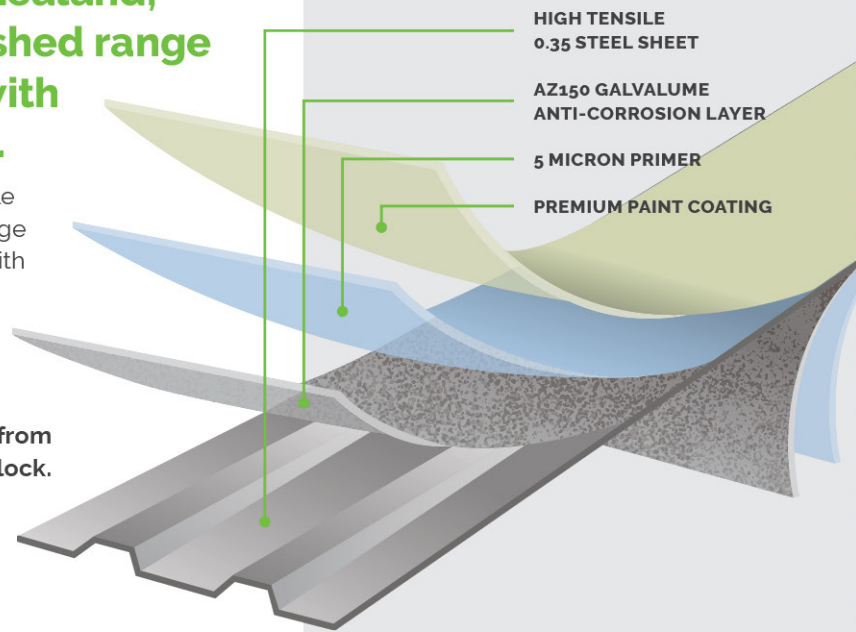

THE NEW ZEALAND MADE GALVO SHED RANGE

After nearly 50 years of manufacturing garden sheds right here in New Zealand, we are confident that the Galvo shed range offers quality and affordability with a shed to suit every requirement.

Our Galvo Premium sheds are built to last using high tensile 0.35 steel with a deep ribbed profile for extra strength. Large sheet sizes make for a quick and efficient assembly and with a range of innovative flooring systems available your Galvo shed will last a lifetime and provide a safe and reliable shelter for your garden tools or lawnmower to your BBQ or ride on.

The Galvo shed range offers choices to suit every taste, from the hobby gardener to the larger backyard or lifestyle block. Check out the range below to find the Galvo shed that suits you best.

GALVO PREMIUM FEATURES

1

PICK THE SHED AND SIZE THAT SUITS YOU BEST

Grey Friars

Desertsand

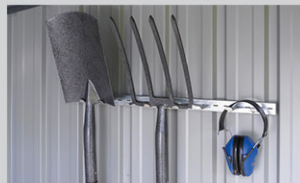

Karaka

1. SHELF BRACKETS

Hangs from the wall to allow maximum use of valuable floor space. Includes 3 x ply shelves, 1200mm x 300mm.

2. TOOL RACKS

6 racks & 2 wallstrips. Keep your tools off the floor.

3. FLOORS

We offer kitset wooden floors for every size of shed. Treated timber sits directly on the ground. The floor may need pegging into the ground in windy areas.

4. HOOKS

Coming in a set of four.

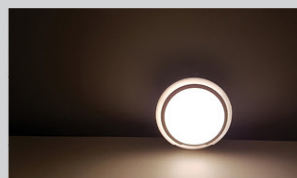

5. FLAT FLOOR CLAMP

For existing flat concreted areas using dyna-bolts. (Bolts need to be ordered separately).

6. RECESSED FLOOR CLAMPS

For specially poured concrete floors. We recommend the recessed concrete floor system as it provides greater protection from wind lift and moisture entering under your shed. (Pre-bent bolts available separately).

7. RECHARGEABLE LED SENSOR LIGHT

Handy for when the light is poor. Sensor automatically turns the unit on and off to ensure you can find what you need even at night.

8. WORKBENCH

This sturdy workbench will be the perfect addition to your shed. Made from solid timber with a handy pegboard for your tools. (Tools not supplied).
