READY TO PAINT

Blockade and Styleline are pre-primed and ready for you to paint in the colour of your choice.

New Zealand's most adaptable fencing system

*SECTOR Fencing is a simple,
modular, easy-to-build fencing
system, which can also be
customised to add a stylish look to
complement the features of any home.*

Anyone with basic handyman skills could construct an attractive and durable fence which will add value and privacy to your property. Simply install the posts, slide in your choice of panels and with a few finishing touches, you're done.

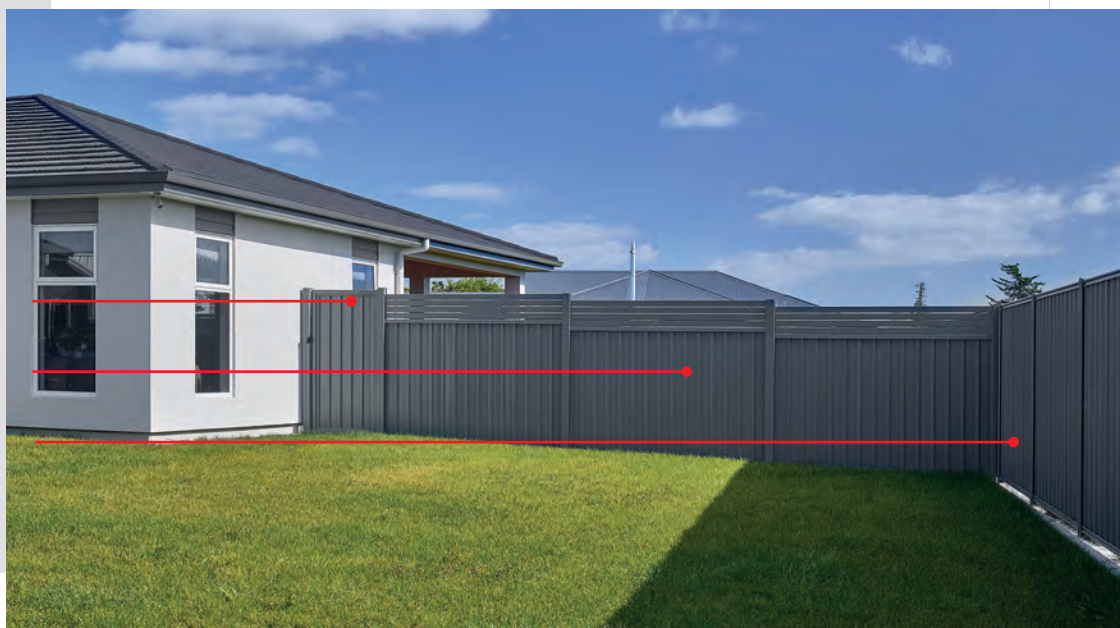

The system is totally flexible and adaptable. All panels are compatible and can be combined in whichever configuration you require to protect and complement your property.

COLOURED STEEL GATE

FRONTIER

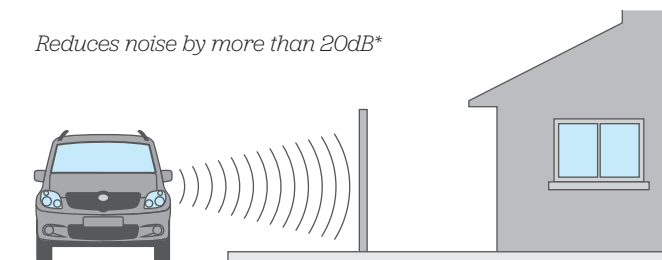

Why choose **SECTOR**?

Strong, versatile, easy to install and built to last. With great sound barrier qualities and a choice of options to add value to your investment.

Sound

The composite wall panels laminated with fibre cement board in the **Blockade** range have highly effective noise reduction properties. With a 20+dB audible reduction in traffic and general neighbourhood noise, this fencing system is ideal if minimising roadside noise is a priority.

*Reduces noise by more than 20dB**

*Applies to Blockade only.

Simple

Featuring simple DIY installation methods, the entire SECTOR Fencing range is popular with homeowners wishing to install their own fence. Measure the length of fencing required and a simple calculation will allow you to order the correct number of panels and posts. Once the postholes have been dug and posts inserted, the standard length panels can be quickly slotted into place.

Of course, we are here to help with any questions you have, or if you need an accredited installer. Just call us on

0800 235 2473

Fast

For most residential properties, the entire fence can be installed within a day. Utilising the cleverly designed modular system and simple installation method, you too can have that designer 'wow' look overnight and make your neighbours jealous.

Stunning and adaptable

SECTOR **Blockade** panel sections are designed to be painted using standard exterior acrylic paint finishes or textured coatings, allowing you to match your fence to the colour of your home.

By including decorative slats, the **Styleline** panel system creates a stylish and customised look to complement the features of any home. Opt for slats with **Borderline** sheeting sections for a cost-effective solution, or use **Breezeline** to enclose and protect private areas. Any combination will add the finishing touch to your new boundary investment.

Made in New Zealand

Made in New Zealand from high quality components, the system offers a strong and durable boundary solution in any climate.

**10
YEAR
WARRANTY**

Satisfaction guaranteed!

If any component of the supplied fence fails – we will replace it!

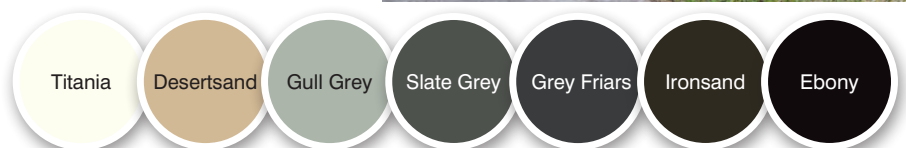

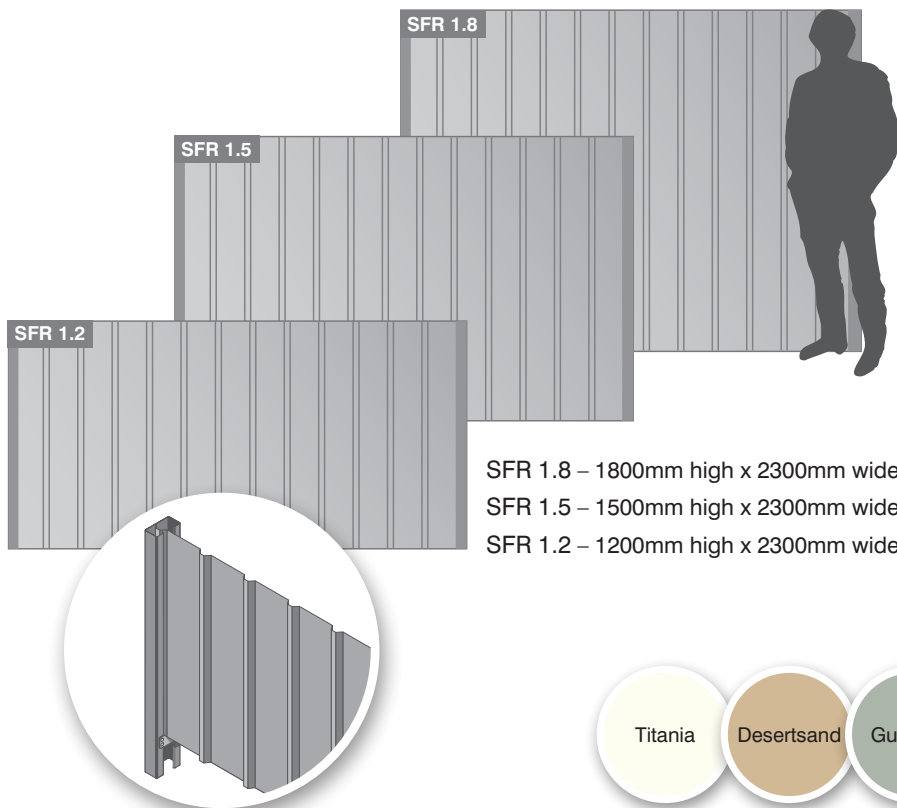

Ensure your fence is built and secured to our supplied instructions as a minimum.

The Warranty does not cover damage or loss through act of God.

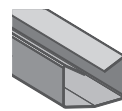

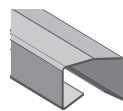

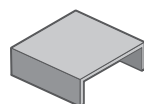

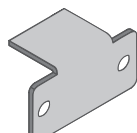

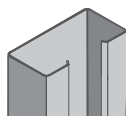

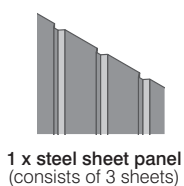

FRONTIER

Strong and durable coloured steel sections

brackets

1 x joining profile
(for 1.8 with 300mm
infill)

2 x Slat
mounting channel

Flush fit post
cap

Capping
channel bottom

Assembly required –
all fixings are supplied.

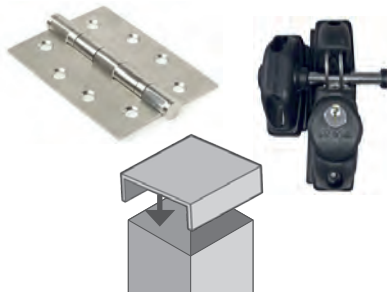

GATES

Sector gates come with high quality stainless steel hinges and a lockable latch, and are 900mm wide to fit a 925mm opening.

Gate posts, if required, should be ordered separately.

Custom gate sizes are available on request.

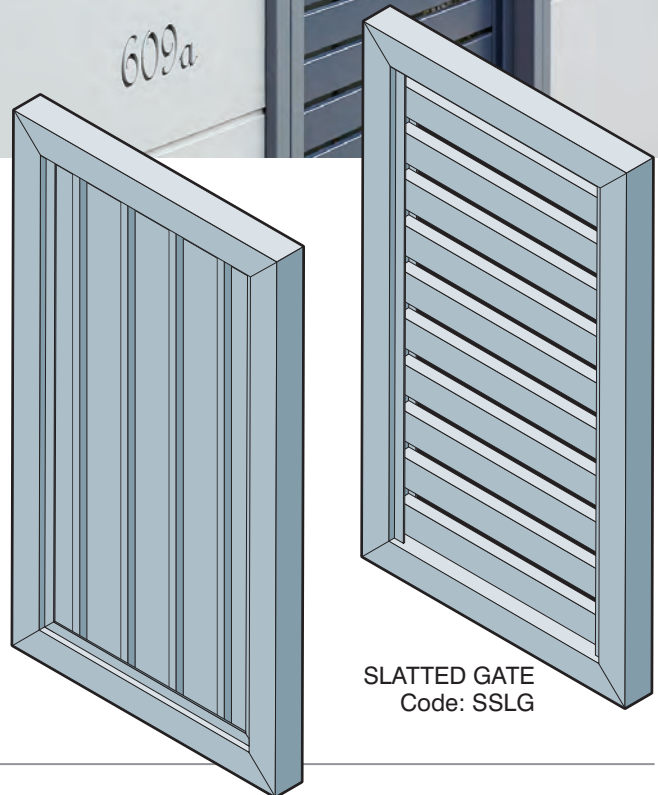

COLOURED STEEL GATE
Code: SSHG

GATE POST 90mm x 90mm

Colours: Gate and post colours can be combined. Colours must be specified on ordering.

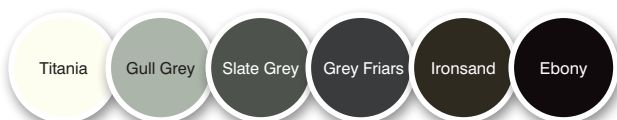

SLATTED GATE
Code: SSLG

ECO SLAT GATE KIT

Code: ECSG

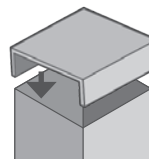

Introducing our new, economical, cut-to-size, kitset slat gate (maximum size 1800mm high x 1000mm wide).

Supplied in kit form as two 1800mm high channels, 18 x 1000mm wide slats (85mm x 25mm), high quality stainless steel hinges and a lockable latch.

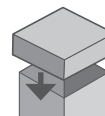

Colours: Gate kit and post colours can be combined. Colours must be specified on ordering.

You can cut down the channels and the slats to create your desired size. Then simply assemble your gate and the sliding plate covers will cover the screws to provide a professional finish.

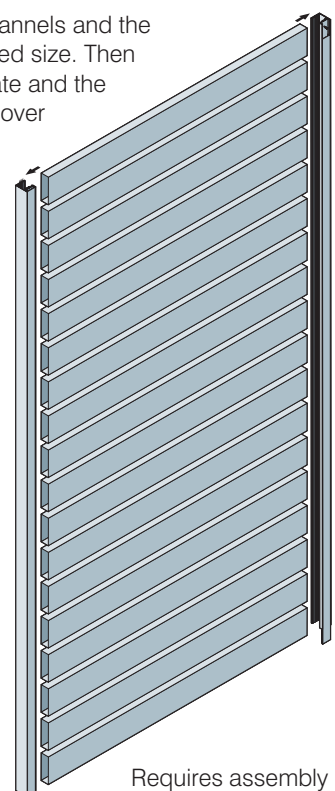

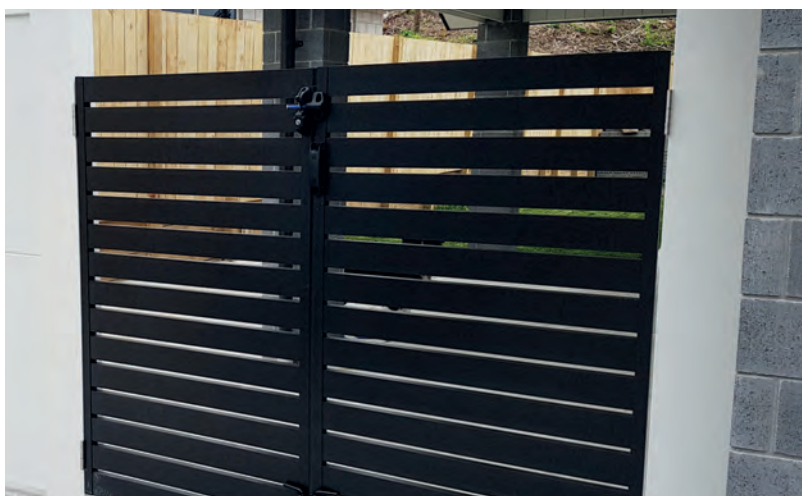

GATE POST - 90mm x 90mm
+ flush fit post cap

GATE POST - 60mm x 60mm
+ post cap

Gate posts, if required, should be ordered separately.

Double Eco Slat Gate Kits shown, cut down in height to 1500mm (15 slats)

Requires assembly

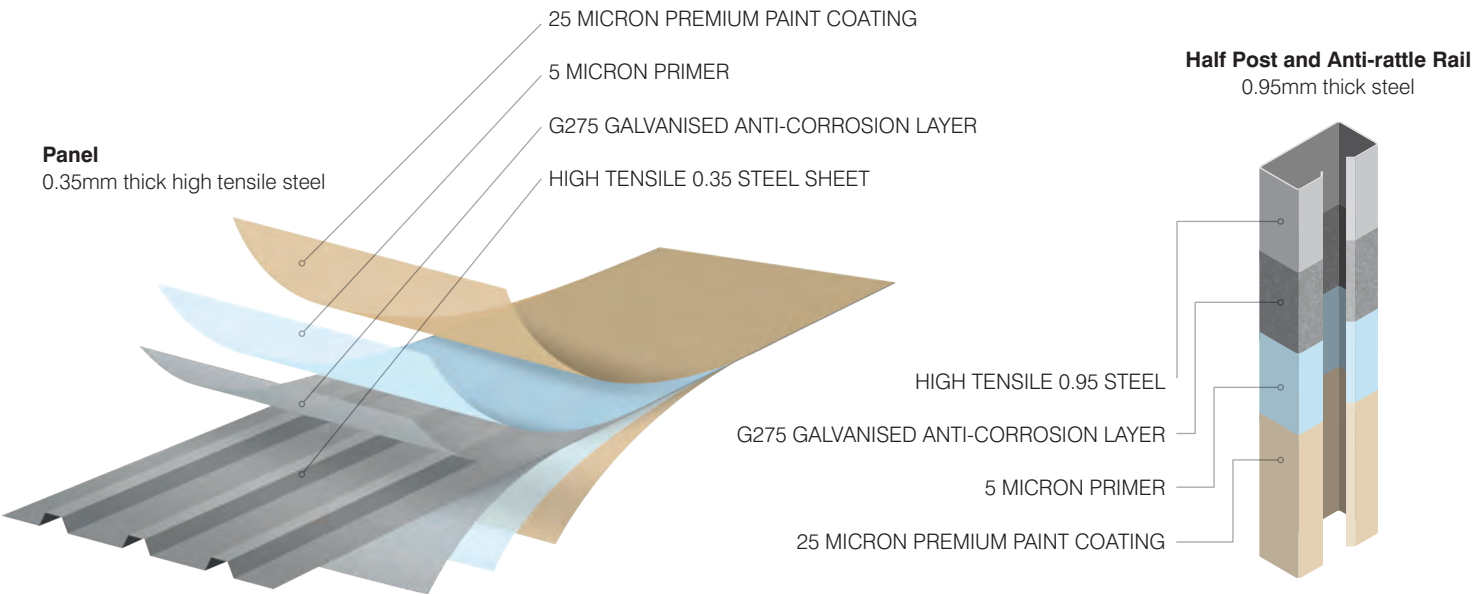

POST CONFIGURATIONS

Below are the different configurations for the sector posts.
Each panel comes with two 90mm x 45mm half posts or one 60mm x 60mm post (Breezeline), so you only need to order the additional elements in red to achieve your desired configurations.

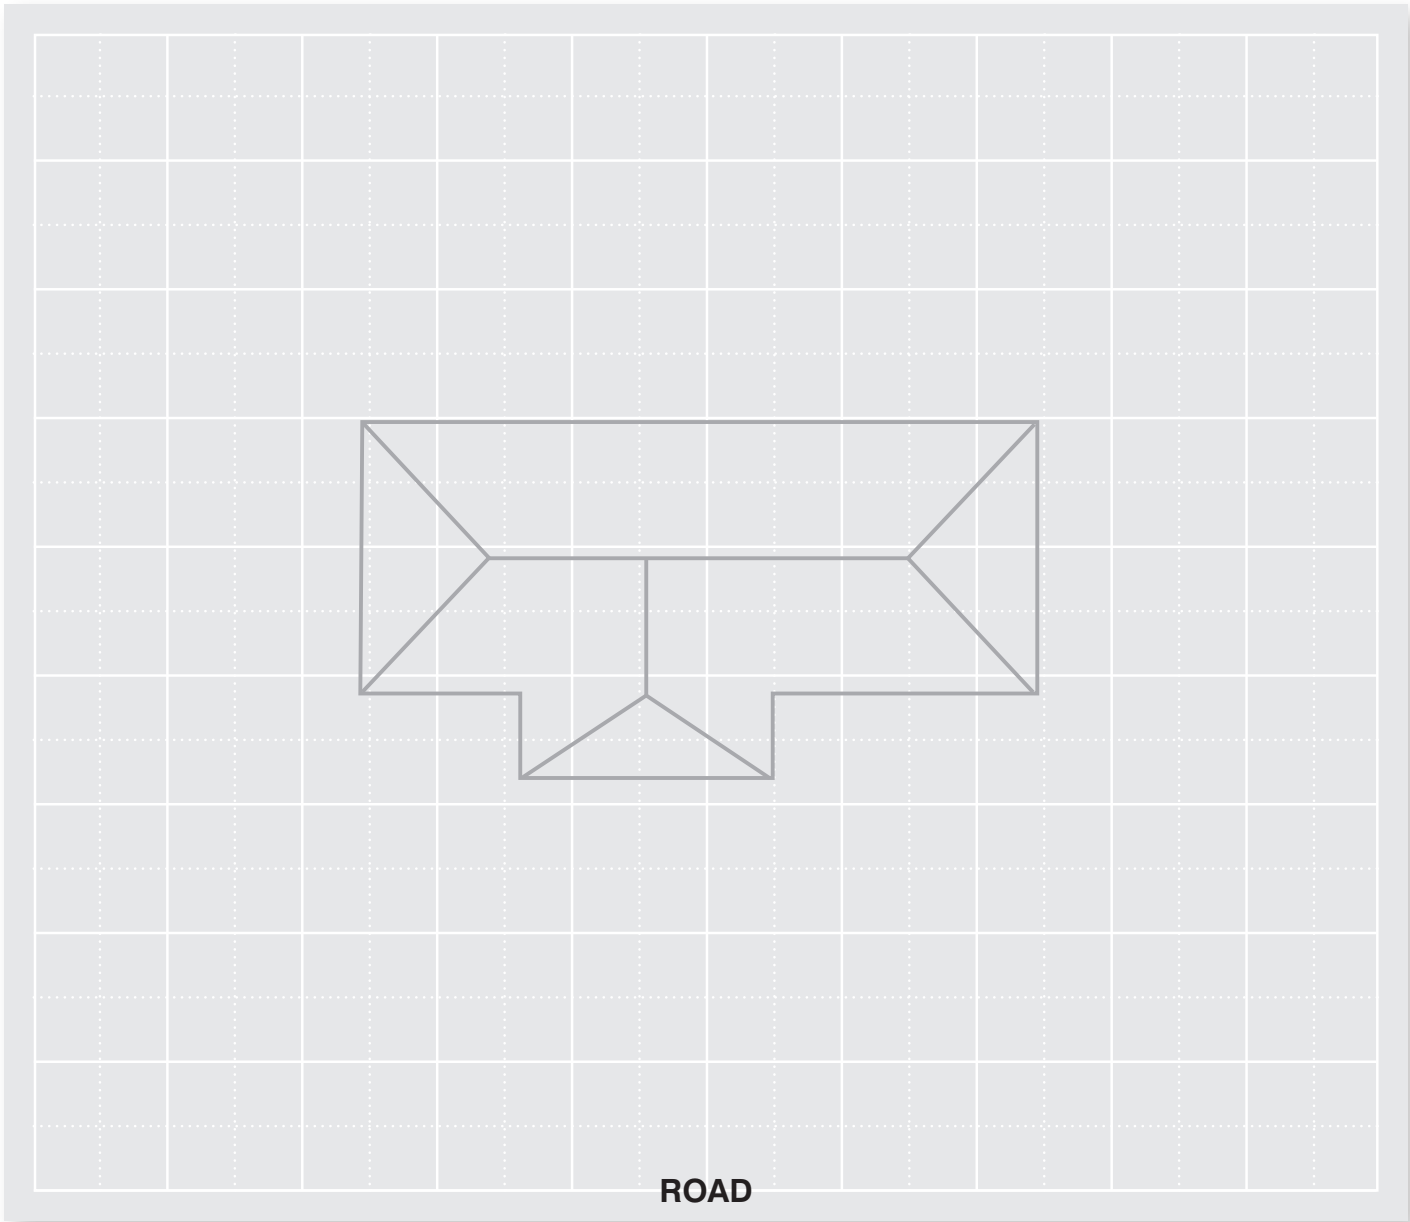

SECTOR FEATURES

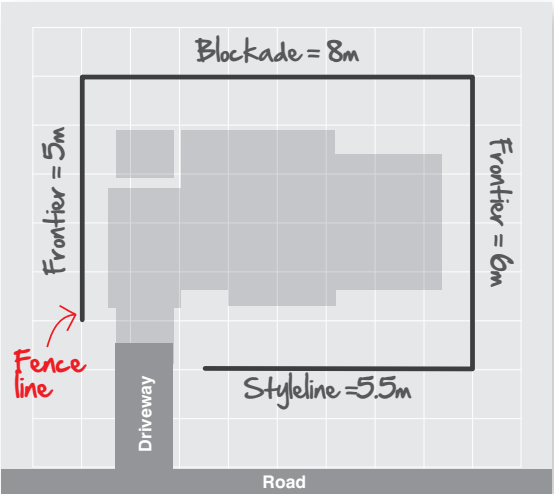

Our 0.35mm high tensile sheet steel (0.95mm for posts and rails) is thicker than that of many of our competitors, and receives three generous coatings, on both sides, to ensure maximum protection from corrosion.
